Class I: ZEOIX

ANNUAL REPORT

April 30, 2014

1-855-ZEO-FUND
(1-855-936-3863)

*Distributed by Northern Lights Distributors, LLC
Member FINRA*

April 30, 2014

Dear Shareholders:

Fixed income markets traveled a difficult path from our last annual report through the end of 2013. During periods of equity market strength, the “Great Rotation” from fixed income into equities saw broad declines across fixed income asset classes. During those periods of equity market weakness due to fears of rising interest rates, fixed income did not fare much better. It finally seemed like a good time to bet that the bond market’s best days were behind it. But the strength in both bonds and equities in early 2014, in part due to an unexpectedly significant decline in long-term interest rates, once again reminded us that today’s environment is more uncertain than ever.

PERFORMANCE REVIEW

The Zeo Strategic Income Fund (the “Fund”) had a total return of +2.39% since October and +4.06% for the year ended April 30, 2014. During the same periods, the Barclays Capital U.S. Aggregate Bond Indexⁱ (the “Benchmark”) returned +1.74% and -0.26%, respectively. The past year was particularly revealing for the Fund. As we noted in our last shareholder report, the first half of 2013 was marked by significant volatility in the fixed income markets as talk of the Federal Reserve’s “taper” – reduction of its bond repurchase program – marked the beginning of the end for low interest rates. The Fund’s outperformance can be attributed to our low sensitivity to this risk of a rise in rates. It is worth noting that the Benchmark, representing the broader fixed income markets, is only now approaching its pre-“taper” levels.

It should be noted that many of the strategies that investors used to protect portfolios against such a rise in rates also exhibited declines – some popular ETFs used by investors to shorten durations experienced peak-to-trough losses of between 2% and 5% in roughly a one month period. That is, in exactly the scenario in which these investments were expected to protect a portfolio, they instead contributed meaningfully to losses. While we support the decision to move toward shorter-duration, credit-oriented strategies, the true differentiated risk profile provided by credit requires an active approach to bond selection. The Fund takes such an approach, and we believe this is why the Fund was not significantly affected by the factors above that negatively impacted the Benchmark and other fixed income strategies. In our view, the Fund’s focus on fundamentals, with fewer, more carefully selected investments, was a primary driver of our strong performance over the last twelve months.

INVESTMENT OUTLOOK

It is not a controversial statement to say that true conviction is a challenge in the current market environment. Give the same raw data from recent economic reports to any pair of well-educated, hard-working analysts at top-tier Wall Street banks, and they could easily reach contradictory conclusions. In fact, we saw just that toward the end of 2013, with a year-end market outlook from JP Morgan that favored high yield bonds set against Morgan Stanley's view that the asset class is overvalued. Take into account any number of unexpected factors that could come into play in the next twelve months, and it's hard to imagine that an outlook for the markets or the broader economy that insists on a directional view in today's environment could be actionable for most people.

On the contrary, the prudent investor may be better served to *respect* rather than *deny* the uncertainty that surrounds us now and, likely, for the years to come. In our view, the most actionable outlook we can provide is an acknowledgement of a wide range of potential outcomes. From this outlook comes the opportunity to focus on strategies that aim to reduce the number of unknowns to which they are exposed and to benefit from volatility and uncertainty. This approach is particularly suited to fixed income portfolios with the dual objectives of protecting principal and generating income.

Given the low yield environment, many fixed income investors are looking to alternative strategies to fulfill these goals. While we applaud the effort to diversify risks away from durationⁱⁱ and betaⁱⁱⁱ, it is important to remember that there is no free money. If it appears that a strategy can reduce a risk without an offsetting drop in return, it is highly likely that one is simply getting paid for a new and different risk. This is not bad in and of itself, but we urge investors to evaluate whether the new risks are aligned with their objectives. For example, long/short^{iv} strategies have financing risk if short-term rates were to rise. Similarly, straying outside of fixed income to achieve a fixed income objective is likely to introduce unintended asset class risks of its own.

At Zeo, we believe that capital preservation is best achieved by working to identify and control risk. Increasing complexity in a portfolio typically does just the opposite. It will come as no surprise that we prefer a fundamental approach as a straightforward and differentiated alternative for fixed income in today's uncertain markets.

We thank you for your continued support and confidence in our management.

Sincerely,

Venkatesh Reddy
Chief Investment Officer

Bradford Cook
Portfolio Manager

ⁱ *The Barclays Capital U.S. Aggregate Bond Index covers the USD-denominated, investment-grade, fixed-rate, taxable bond market of SEC-registered securities. The index includes bonds from the Treasury, Government-Related, Corporate, MBS (agency fixed-rate and hybrid ARM pass-throughs), ABS, and CMBS sectors. The U.S. Aggregate Index is a component of the U.S. Universal Index in its entirety. Unmanaged index returns do not reflect any fees, expenses or sales charges. You cannot invest directly in an index.*

ⁱⁱ *Duration is a measure of the sensitivity of the price of an investment to a change in interest rates.*

ⁱⁱⁱ *Beta is a measure of the correlated volatility of an investment in relation to the volatility of the benchmark to which the investment is being compared.*

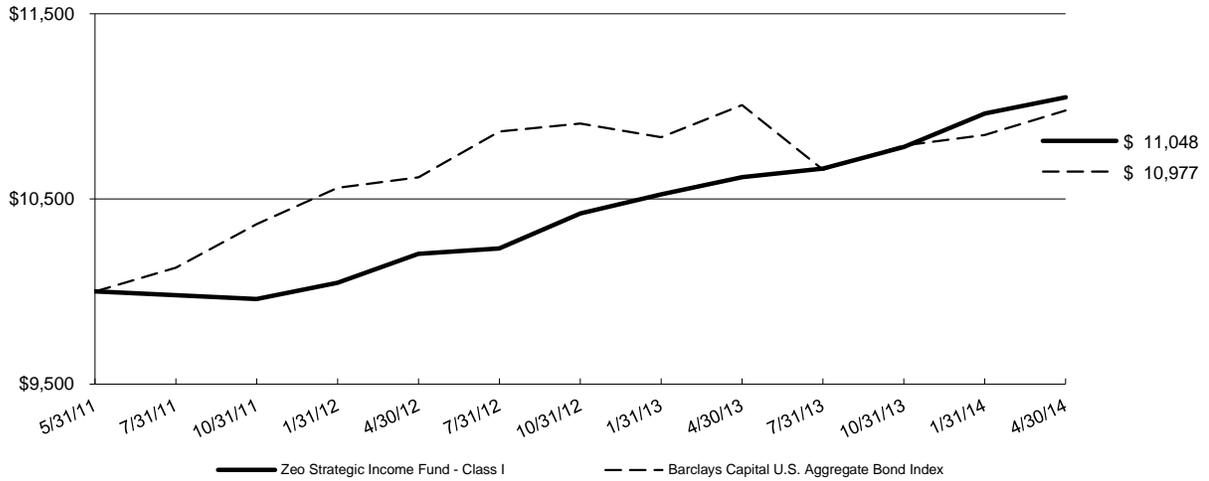

^{iv} *Long/short is an investment strategy that involved buying long securities that are expected to increase in value and selling short securities that are expected to decrease in value.*

Zeo Strategic Income Fund
PORTFOLIO REVIEW (Unaudited)
April 30, 2014

The Fund's performance figures* for the period ended April 30, 2014, compared to its benchmark:

Annualized Average Returns:	One Year	Inception** - April 30, 2014
Zeo Strategic Income Fund - Class I	4.06%	3.48%
Barclays Capital U.S. Aggregate Bond Index ***	(0.26)%	3.25%

Comparison of the Change in Value of a \$10,000 Investment

* The Performance data quoted is historical. Past performance is no guarantee of future results. Current performance may be higher or lower than the performance data quoted. The principal value and investment return of an investment will fluctuate so that your shares, when redeemed, may be worth more or less than their original cost. The returns shown do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemptions of Fund shares. Performance figures for periods greater than one year are annualized. The total operating expense ratio (including indirect expenses), as stated in the fee table in the Fund's Prospectus dated August 28, 2013, is 1.52% for Class I shares. For performance information current to the most recent month-end, please call 1-855-936-3863.

** Inception date is May 31, 2011.

*** The Barclay's Capital U.S. Aggregate Bond Index is a widely accepted, unmanaged index of corporate, U.S. government and U.S. government agency debt instruments, mortgage-backed securities, and asset-backed securities. Investors cannot invest directly in an index.

(1) The Zeo Strategic Income Fund commenced operations on May 31, 2011.

(2) Per share amounts calculated using average shares method, which more appropriately presents the per share data for each period.

(3) Less than \$0.005 per share.

(4) Total return shown excludes the effect of applicable redemption fees. Total returns are historical in nature and assume changes in share price, reinvestment of dividends and capital gain distributions, if any. Had the Advisor not absorbed a portion of the Fund's expenses for the period ended April 30, 2012, total return would have been lower.

(5) Not annualized.

(6) Represents the ratio of expenses to average net assets inclusive of Advisor's recapture of waived/reimbursed fees from prior periods.

(7) Annualized.

Zeo Strategic Income Fund

NOTES TO FINANCIAL STATEMENTS

April 30, 2014

1. ORGANIZATION

The Zeo Strategic Income Fund (the "Fund") is a non-diversified series of shares of beneficial interest of Northern Lights Fund Trust (the "Trust"), a trust organized under the laws of the State of Delaware on January 19, 2005, and is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end management investment company. The Fund seeks income and moderate capital appreciation. The Fund currently offers the Class I shares which commenced operations on May 31, 2011. Class I shares are offered at net asset value.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies followed by the Fund in preparation of its financial statements. These policies are in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Securities Valuation – Securities listed on an exchange are valued at the last reported sale price at the close of the regular trading session of the primary exchange on the business day the value is being determined, or in the case of securities listed on NASDAQ at the NASDAQ Official Closing Price ("NOCP"). In the absence of a sale such securities shall be valued at the current bid price on the day of valuation. Options contracts listed on a securities exchange or board of trade for which market quotations are readily available shall be valued at the last quoted sales price or, in the absence of a sale, at the current bid price on the day of valuation. Option contracts not listed on a securities exchange or board of trade for which over-the-counter market quotations are readily available shall be valued at the mean between the current bid and ask prices on the day of valuation. Index options shall be valued at the mean between the current bid and ask prices on the day of valuation. Short-term investments that mature in 60 days or less are valued at amortized cost, provided such valuations represent fair value. Debt securities (other than short-term obligations) are valued each day by an independent pricing service approved by the Board of Trustees (the "Board") based on methods which include consideration of: yields or prices of securities of comparable quality, coupon, maturity and type, indications as to values from dealers, and general market conditions or market quotations from a major market maker in the securities.

The Fund may hold securities, such as private placements, interests in commodity pools, other non-traded securities or temporarily illiquid securities, for which market quotations are not readily available or are determined to be unreliable. These securities will be valued at their fair market value as determined using the "fair value" procedures approved by the Board. The Board has delegated execution of these procedures to a fair value team composed of one or more representatives from each of the (i) Trust, (ii) administrator, and (iii) Advisor. The team may also enlist third-party consultants such as an audit firm or financial officer of a security issuer on an as-needed basis to assist in determining a security-specific fair value. The Board reviews and ratifies the execution of this process and the resultant fair value prices at least quarterly to assure the process produces reliable results.

Fair Valuation Process - The applicable investments are valued collectively via inputs from each of these groups. For example, fair value determinations are required for the following securities: (i) securities for which market quotations are insufficient or not readily available on a particular business day (including securities for which

Zeo Strategic Income Fund
NOTES TO FINANCIAL STATEMENTS (Continued)

April 30, 2014

there is a short and temporary lapse in the provision of a price by the regular pricing source), (ii) securities for which, in the judgment of the Advisor, the prices or values available do not represent the fair value of the instrument. Factors which may cause the Advisor to make such a judgment include, but are not limited to, the following: only a bid price or an asked price is available; the spread between bid and asked prices is substantial; the frequency of sales; the thinness of the market; the size of reported trades; and actions of the securities markets, such as the suspension or limitation of trading; (iii) securities determined to be illiquid; (iv) securities with respect to which an event that will affect the value thereof has occurred (a "significant event") since the closing prices were established on the principal exchange on which they are traded, but prior to the Fund's calculation of its net asset value. Specifically, interests in commodity pools or managed futures pools are valued on a daily basis by reference to the closing market prices of each futures contract or other asset held by a pool, as adjusted for pool expenses. Restricted or illiquid securities, such as private placements or non-traded securities are valued via inputs from the Advisor based upon the current bid for the security from two or more independent dealers or other parties reasonably familiar with the facts and circumstances of the security (who should take into consideration all relevant factors as may be appropriate under the circumstances). If the Advisor is unable to obtain a current bid from such independent dealers or other independent parties, the fair value team shall determine the fair value of such security using the following factors: (i) the type of security; (ii) the cost at date of purchase; (iii) the size and nature of the Fund's holdings; (iv) the discount from market value of unrestricted securities of the same class at the time of purchase and subsequent thereto; (v) information as to any transactions or offers with respect to the security; (vi) the nature and duration of restrictions on disposition of the security and the existence of any registration rights; (vii) how the yield of the security compares to similar securities of companies of similar or equal creditworthiness; (viii) the level of recent trades of similar or comparable securities; (ix) the liquidity characteristics of the security; (x) current market conditions; and (xi) the market value of any securities into which the security is convertible or exchangeable.

The Fund utilizes various methods to measure the fair value of all of its investments on a recurring basis. GAAP establishes a hierarchy that prioritizes inputs to valuation methods. The three levels of input are:

Level 1 – Unadjusted quoted prices in active markets for identical assets and liabilities that the Fund has the ability to access.

Level 2 – Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument in an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3 – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Fund's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that

Zeo Strategic Income Fund
NOTES TO FINANCIAL STATEMENTS (Continued)
April 30, 2014

valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest level input that is significant to the fair value measurement.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The following tables summarize the inputs used as of April 30, 2014 for the Fund's investments measured at fair value:

Assets*	Level 1	Level 2	Level 3	Total
Bonds & Notes	\$ -	\$ 45,559,357	\$ -	\$ 45,559,357
Term Loans	-	14,735,888	-	14,735,888
Short-Term Investments	4,468,832	-	-	4,468,832
Total	\$ 4,468,832	\$ 60,295,245	\$ -	\$ 64,764,077

The Fund did not hold any Level 3 securities during the year. There were no transfers into or out of Level 1 or Level 2 during the year. It is the Fund's policy to recognize transfers between Level 1 and Level 2 at the end of the reporting period.

*Refer to the Portfolio of Investments for security classifications.

Security Transactions and Related Income – Investment security transactions are accounted for on a trade date basis. Cost is determined and gains and losses are based upon the specific identification method for both financial statement and Federal income tax purposes. Dividend income is recorded on the ex-dividend date and interest income is recorded on the accrual basis. Purchase discounts and premiums on securities are accreted and amortized over the life of the respective securities.

Expenses – Expenses of the Trust that are directly identifiable to a specific fund are charged to that fund. Expenses, which are not readily identifiable to a specific fund, are allocated in such a manner as deemed equitable, taking into consideration the nature and type of expense and the relative sizes of the funds in the Trust.

Federal Income Tax – The Fund intends to continue to qualify as a regulated investment company by complying with the requirements of Subchapter M of the Internal Revenue Code that are applicable to regulated investment companies and will distribute all of its taxable income, if any, to shareholders. Accordingly, no provision for Federal income taxes is required in the financial statements.

The Fund recognizes the tax benefits of uncertain tax positions only when the position is “more likely than not” to be sustained assuming examination by tax authorities. Management has analyzed the Fund's tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax

Zeo Strategic Income Fund
NOTES TO FINANCIAL STATEMENTS (Continued)
April 30, 2014

positions taken on the returns filed for the open tax years 2012 through 2013, or expected to be taken in the Fund's 2014 tax return. The Fund identifies its major tax jurisdictions as U.S. Federal and Nebraska. The Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next twelve months.

Dividends and Distributions to Shareholders – Dividends from net investment income, if any, are declared and paid at least quarterly. The Fund will declare and pay net realized capital gains, if any, annually. Dividends to shareholders from net investment income and distributions from net realized gains are recorded on ex-dividend date and are determined in accordance with Federal income tax regulations, which may differ from GAAP. These “book/tax” differences are considered either temporary (i.e., deferred losses, capital loss carry forwards) or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the composition of net assets based on their Federal tax-basis treatment; temporary differences do not require reclassification. These reclassifications have no effect on net assets, results from operations or net asset value per share of the Fund.

Use of Estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

Indemnification – The Trust indemnifies its officers and Trustees for certain liabilities that may arise from the performance of their duties to the Trust. Additionally, in the normal course of business, the Fund enters into contracts that contain a variety of representations and warranties and which provide general indemnities. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, the risk of loss due to these warranties and indemnities appears to be remote.

3. ADVISORY FEES AND OTHER RELATED PARTY TRANSACTIONS

Zeo Capital Advisors, LLC serves as the Fund's Investment Advisor (the “Advisor”). The Fund has employed Gemini Fund Services, LLC (“GFS”) to provide administration, fund accounting, and transfer agent services. A Trustee and certain officers of the Fund are also officers of GFS, and are not paid any fees directly by the Fund for serving in such capacities.

Pursuant to an Investment Advisory Agreement with the Trust, with respect to the Fund, (the “Advisory Agreement”), the Advisor, under the oversight of the Board, directs the daily operations of the Fund and supervises the performance of administrative and professional services provided by other service providers. Under the terms of the Advisory Agreement, the Advisor receives monthly fees calculated at an annual rate of 1.00% on the first \$250 million in net assets and 0.75% on assets greater than \$250 million.

Zeo Strategic Income Fund
NOTES TO FINANCIAL STATEMENTS (Continued)

April 30, 2014

Pursuant to a written contract (the “Waiver Agreement”), the Advisor has agreed, at least until August 31, 2015, to waive a portion of its advisory fee and has agreed to reimburse the Fund for other expenses to the extent necessary so that the total expenses incurred by the Fund (excluding any front-end or contingent deferred loads, brokerage fees and commissions, acquired fund fees and expenses, borrowing costs (such as interest and dividend expense on securities sold short), taxes, and extraordinary expenses, such as litigation expenses (which may include indemnification of Fund officers and Trustees, contractual indemnification of Fund service providers (other than the Advisor)) do not exceed 1.50% per annum of the Fund’s average daily net assets for Class I shares.

If the Advisor waives any fee or reimburses any expense pursuant to the Waiver Agreement, and the Fund's Operating Expenses are subsequently less than 1.50% of average daily net assets for Class I shares, the Advisor shall be entitled to reimbursement by the Fund, on a rolling three year basis, for such waived fees or reimbursed expenses provided that such reimbursement does not cause the Fund's expenses to exceed 1.50% of average daily net assets for Class I shares. If Fund Operating Expenses subsequently exceed 1.50% per annum of the Fund's average daily net assets for Class I shares, the reimbursements shall be suspended. The Advisor may seek reimbursement only for expenses waived or paid by it during the three fiscal years prior to such reimbursement; provided, however, that such expenses may only be reimbursed to the extent they were waived or paid after the date of the Waiver Agreement (or any similar agreement). No amounts will be paid to the Advisor in any fiscal quarter unless the Board determines that reimbursement is in the best interests of the Fund and its shareholders. For the year ended April 30, 2014, the Advisor recaptured \$31,494 for prior period expense reimbursements/waivers. No further amounts remain available for future reimbursement to the Advisor as of April 30, 2014.

Northern Lights Distributors, LLC (the “Distributor”) acts as the Fund’s principal underwriter in a continuous public offering of the Fund’s shares. The Distributor is an affiliate of GFS. For the year ended April 30, 2014, the Distributor received no underwriting commissions.

Pursuant to a separate servicing agreement with GFS, the Fund pays GFS customary fees for providing administration, fund accounting and transfer agency services to the Fund. GFS provides a Principal Executive Officer and a Principal Financial Officer to the Fund.

In addition, certain affiliates of GFS provide ancillary services to the Fund as follows:

Northern Lights Compliance Services, LLC (“NLCS”), an affiliate of GFS, provides a Chief Compliance Officer to the Trust, as well as related compliance services, pursuant to a consulting agreement between NLCS and the Trust. Under the terms of such agreement, NLCS receives customary fees from the Fund.

Gemcom, LLC (“Gemcom”), an affiliate of GFS, provides EDGAR conversion and filing services as well as print management services for the Fund on an ad-hoc basis. For the provision of these services, Gemcom receives customary fees from the Fund.

Zeo Strategic Income Fund
NOTES TO FINANCIAL STATEMENTS (Continued)
April 30, 2014

4. INVESTMENT TRANSACTIONS

The cost of purchases and proceeds from the sale of securities, other than short-term securities and U.S. Government securities, for the year ended April 30, 2014 amounted to \$104,055,832 and \$78,268,222, respectively.

5. CONTROL OWNERSHIP

The beneficial ownership, either directly or indirectly, of more than 25% of the voting securities of a Fund creates presumption of control of the Fund, under Section 2(a)(9) of the 1940 Act. As of April 30, 2014, David R. Albin held approximately 34% of the voting securities of the Zeo Strategic Income Fund.

6. REDEMPTION FEES

The Fund may assess a short-term redemption fee of 1.00% of the total redemption amount if shareholders sell their shares after holding them for less than 30 days. The redemption fee is paid directly to the Fund. For the year ended April 30, 2014, the Class I assessed \$124 in redemption fees.

7. DISTRIBUTIONS TO SHAREHOLDERS AND TAX COMPONENTS OF CAPITAL

The tax character of distributions paid during the following years was:

	Fiscal Year Ended April 30, 2014	Fiscal Year Ended April 30, 2013
Ordinary Income	\$ 2,259,473	\$ 1,207,395
Long-Term Capital Gain	21,206	25,033
	<u>\$ 2,280,679</u>	<u>\$ 1,232,428</u>

As of April 30, 2014, the components of distributable earnings/ (deficit) on a tax basis were as follows:

Undistributed Ordinary Income	Undistributed Long-Term Gains	Unrealized Appreciation/ (Depreciation)	Total Accumulated Earnings/(Deficits)
\$ 261,445	\$ 26,559	\$ 381,623	\$ 669,627

Zeo Strategic Income Fund
NOTES TO FINANCIAL STATEMENTS (Continued)
April 30, 2014

Permanent book and tax differences, primarily attributable to the tax treatment of contingent convertible debt securities, consent fee payments and non-deductible expenses, resulted in reclassification for the year ended April 30, 2014 as follows:

Paid In Capital	Undistributed Net Investment Income (Loss)	Accumulated Net Realized Gains (Loss)
<u>\$ (473)</u>	<u>\$ 202,657</u>	<u>\$ (202,184)</u>

8. SUBSEQUENT EVENTS

Subsequent events after the date of the Statement of Assets and Liabilities have been evaluated through the date the financial statements were issued. Management has concluded that there is no impact requiring adjustment or disclosure in the financial statements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Trustees of Northern Lights Fund Trust and the Shareholders of Zeo Strategic Income Fund

We have audited the accompanying statement of assets and liabilities of the Zeo Strategic Income Fund, a series of shares of beneficial interest in Northern Lights Fund Trust, including the portfolio of investments, as of April 30, 2014, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the years in the two-year period then ended and the financial highlights for each of the years in the two-year period then ended and for the period May 31, 2011 (commencement of operations) through April 30, 2012. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of April 30, 2014 by correspondence with the custodian. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Zeo Strategic Income Fund as of April 30, 2014, and the results of its operations for the year then ended, the changes in its net assets for each of the years in the two-year period then ended and its financial highlights for each of the years in the two-year period then ended and for the period May 31, 2011 through April 30, 2012, in conformity with accounting principles generally accepted in the United States of America.

Zeo Strategic Income Fund
EXPENSE EXAMPLES (Unaudited)

April 30, 2014

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, including redemption fees; and (2) ongoing costs, including management fees and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from November 1, 2013 through April 30, 2014.

Actual Expenses

The “Actual Expenses” line in the table below provides information about actual account values and actual expenses. You may use the information below together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the table under the heading entitled “Expenses Paid During Period” to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

The “Hypothetical” line in the table below provides information about hypothetical account values and hypothetical expenses based on the Fund’s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balances or expenses you paid for the period. You may use this information to compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as redemption fees. Therefore, the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

Actual	Beginning Account Value 11/1/13	Ending Account Value 4/30/14	Expenses Paid During Period* 11/1/13 – 4/30/14	Fund’s Annualized Expense Ratio**
Class I	\$1,000.00	\$1,023.90	\$6.57	1.31%
Hypothetical (5% return before expenses)	Beginning Account Value 11/1/13	Ending Account Value 4/30/14	Expenses Paid During Period* 11/1/13 – 4/30/14	Fund’s Annualized Expense Ratio**
Class I	\$1,000.00	\$1,018.30	\$6.56	1.31%

*Expenses are equal to the average account value over the period, multiplied by the Fund’s annualized expense ratio, multiplied by the number of days in the period (181) divided by the number of days in the fiscal year (365).

**Annualized.

Zeo Strategic Income Fund
SUPPLEMENTAL INFORMATION (Unaudited) (Continued)

April 30, 2014

Zeo Strategic Income Fund* (Adviser-Zeo Capital Advisors, LLC)

In connection with the regular meeting held on March 26-27, 2014, the Board of Trustees (the “Trustees” or the “Board”) of the Northern Lights Fund Trust (the “Trust”), including a majority of the Trustees who are not “interested persons,” as that term is defined in the Investment Company Act of 1940, as amended, discussed the renewal of an investment advisory agreement (the “Advisory Agreement”) between Zeo Capital Advisors, LLC (“Zeo”) and the Trust, with respect to the Zeo Strategic Income Fund (the “Fund”). In considering the renewal of the Advisory Agreement, the Trustees received materials specifically relating to the Advisory Agreement.

The Trustees relied upon the advice of independent legal counsel and their own business judgment in determining the material factors to be considered in evaluating the Advisory Agreement, and the weight to be given to each such factor. The conclusions reached by the Trustees were based on a comprehensive evaluation of all of the information provided and were not the result of any one factor. Moreover, each Trustee may have afforded different weight to the various factors in reaching his conclusions with respect to the Advisory Agreement.

Nature, Extent and Quality of Services. The Board noted that Zeo was founded in 2009, currently manages approximately \$110 million in assets, and provides clients with investment advisory services in fixed income and alternative portfolio management. The Board reviewed the background information on the key investment personnel who are responsible for servicing the Fund and noted its satisfaction with their level of financial industry experience that encompasses portfolio management and prior hedge fund management, trading, credit research, analysis, finance, audit, operations and compliance. The Trustees noted that in March of 2012, Zeo added a second portfolio manager to the team that provided Zeo with additional depth and experience, which the Board agreed was a benefit to the Fund. The Trustees considered that in October of 2013, Zeo added a third member to the team to head up business development and marketing, which the Board agreed also would be an added benefit to the Fund. The Trustees noted that drawing from their previous experience as hedge fund managers, Zeo’s staff looks for investment opportunities through various methods including market screens and frequent dialogues with active market participants and research analysts, which results in a disciplined and diligent analytic culture allowing for detailed analysis of more complex investment instruments. Recognizing that not all strategy risks can be eliminated, Zeo identified interest rate risk, credit risk, and liquidity risk as the main risks inherent to the fixed income asset class and addressed each to the Board’s satisfaction, explaining that having a short duration portfolio, performing detail oriented value-driven analysis, and maintaining concentration limits on positions that can be easily traded, will help minimize principle loss and reduce volatility. The Trustees noted that Zeo provided compliance with the Fund’s investment limitations and guidelines by performing daily oversight of portfolio position concentrations and monitored the expected returns and durations of investments through the use of its technology infrastructure that stores all investment data that can be easily queried. The Board reviewed Zeo’s broker-dealer selection process and expressed their satisfaction that Zeo’s approach to best execution practices, which included such factors as commission rates, execution efficiency and timing, financial strength and responsiveness of the broker-dealer. The Trustees considered that Zeo reported there were no material compliance or litigation issues since the last advisory contract approval. The Board acknowledged that Zeo is a relatively small advisory firm and is taking a responsible approach to its growth. The Board concluded Zeo will likely continue to provide quality service to the Fund and to the benefit of its shareholders.

Performance. The Trustees evaluated the performance of the Fund, and compared the performance to that of the peer group, the Fund’s benchmark, and the Fund’s Morningstar category. They discussed the fact that the Fund’s one year performance of 4.21% compared well to the peer group and Morningstar category averages of 2.63% and 2.13%, respectively, but that since inception the Fund did not achieve the same level of outperformance due to the Fund’s 2012 results. They discussed Zeo’s conclusion that because the Fund is used by investors as a core fixed income

Zeo Strategic Income Fund
SUPPLEMENTAL INFORMATION (Unaudited) (Continued)
April 30, 2014

strategy the Barclays Aggregate Bond Index is a meaningful benchmark, and the Fund has consistently outperformed the benchmark. They also discussed Zeo's emphasis on risk management, and that some underperformance in bull markets is not unexpected. The Trustees concluded that based on such comparisons, the mean return for the Fund was reasonable. The Trustees reviewed the Fund's MPT statistics and noted that the Fund's standard deviation was significantly lower than its benchmark and Morningstar category. The Trustees agreed that this result indicated that the Fund is achieving low volatility and high risk-adjusted returns as intended. Based on these factors, the Trustees concluded that the Fund's performance was acceptable.

Fees and Expenses. The Trustees noted that the current advisory fee of 1.00% was higher than the peer group average of 0.87% and significantly higher than the Morningstar category average of 0.60%. The Trustees considered, however, that most of the funds in the peer group were larger in asset size than the Fund, and that the Fund's advisory fee drops to 0.75% for assets over \$250 million. Moreover, the Board considered that the advisory fee was significantly below the highest fee of the peer group and the Morningstar category. The Board further noted that the Fund's net expense ratio of 1.52% was lower than the peer group and Morningstar category averages and well within the range of fees charged by Funds in those categories. The Trustees noted that while the advisory fee was higher than that reported for some separate accounts, they acknowledged that Zeo's newer separate accounts are charged a fee that is higher than the Fund's advisory fee. Based on these factors, the Trustees concluded that the Fund's fees and expenses were reasonable.

Economies of Scale. The Trustees considered whether economies of scale would be realized by Zeo with respect to management of the Fund. They noted that there is a breakpoint in place when the Fund reaches \$250 million in assets, and that the breakpoint was a meaningful reduction to a fee of 0.75%. The Board concluded that this previously negotiated breakpoint is appropriate and in the best interests of shareholders.

Profitability. The Trustees considered the profits realized by Zeo in connection with the operation of the Fund and whether the amount of profit is a fair entrepreneurial profit with respect to the services provided to the Fund. They reviewed the profitability analysis provided by Zeo and agreed that profits, both in terms of actual dollars and as a percent of total revenue, were reasonable and not excessive based on the level of service provided by Zeo.

Conclusion. Having requested and received such information from Zeo as the Trustees believed to be reasonably necessary to evaluate the terms of the Advisory Agreement, and as assisted by the advice of independent counsel, the Trustees concluded that the advisory fee structure is reasonable and that renewal of the Advisory Agreement is in the best interests of the shareholders of Zeo Strategic Income Fund.

** Due to timing of the contract renewal schedule, these deliberations may or may not relate to the current performance results of the Fund.*

NORTHERN LIGHTS FUND TRUST

Rev. February 2014

FACTS

WHAT DOES NORTHERN LIGHTS FUND TRUST DO WITH YOUR PERSONAL INFORMATION?

Why?

Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some, but not all sharing. Federal law also requires us to tell you how we collect, share, and protect your personal information. Please read this notice carefully to understand what we do.

What?

The types of personal information we collect and share depends on the product or service that you have with us. This information can include:

- Social Security number and wire transfer instructions
- account transactions and transaction history
- investment experience and purchase history

When you are *no longer* our customer, we continue to share your information as described in this notice.

How?

All financial companies need to share customers' personal information to run their everyday business. In the section below, we list the reasons financial companies can share their customers' personal information; the reasons Northern Lights Fund Trust chooses to share; and whether you can limit this sharing.

Reasons we can share your personal information:	Does Northern Lights Fund Trust share information?	Can you limit this sharing?
For our everyday business purposes - such as to process your transactions, maintain your account(s), respond to court orders and legal investigations, or report to credit bureaus.	YES	NO
For our marketing purposes - to offer our products and services to you.	NO	We don't share
For joint marketing with other financial companies.	NO	We don't share
For our affiliates' everyday business purposes - information about your transactions and records.	NO	We don't share
For our affiliates' everyday business purposes - information about your credit worthiness.	NO	We don't share
For nonaffiliates to market to you	NO	We don't share

Joint marketing	<p>A formal agreement between nonaffiliated financial companies that together market financial products or services to you.</p> <ul style="list-style-type: none">• <i>Northern Lights Fund Trust doesn't jointly market.</i>

PROXY VOTING POLICY

Information regarding how the Fund voted proxies relating to portfolio securities for the most recent twelve month period ended June 30 as well as a description of the policies and procedures that the Fund uses to determine how to vote proxies is available without charge, upon request, by calling 1-855-936-3863 or by referring to the Securities and Exchange Commission's ("SEC") website at <http://www.sec.gov>.

PORTFOLIO HOLDINGS

The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. Form N-Q is available on the SEC's website at <http://www.sec.gov> and may be reviewed and copied at the SEC's Public Reference Room in Washington, DC (1-800-SEC-0330). The information on Form N-Q is available without charge, upon request, by calling 1-855-936-3863.
